

As a signatory to the Technician Commitment we are working on the four key areas:

### VISIBILITY

Ensure that all technicians within the organisation are identifiable and that the contribution of technicians is visible within and beyond the institution

### RECOGNITION

Support technicians to gain recognition through professional registration and external awards schemes

### CAREER DEVELOPMENT

Enable career progression opportunities for technicians through the provision of clear, documented career pathways

### SUSTAINABILITY

Ensure the future sustainability of technical skills across the organisation and that technical expertise is fully utilised

See how we are developing these areas and get involved through our Technician Development Website

**Technicians** make it happen

Explore

## Internal Training:

- Personal and Professional Development
- LinkedIn Learning Cambridge
- Apprenticeships. All levels of staff

## External Training:

- Technician focused training with HEaTED
- National Technician Development Centre

## Other Options:

- Secondments
- Mentoring
- Job Shadowing

Consider

**Professional Registration.** Gain an accreditation as recognition for the work you do through the Science Council and selected professional bodies

Connect

- Follow @cam\_techs on Twitter for latest news and events across the national technician community
- Join our technicians group on Yammer or Teams

## ourcambridge

Connect with ourcambridge and help shape the future of the University. Supporting the staff community and offering LEAN training, speed mentoring and a host of other projects. Get involved and represent technical professionals.
